TECHNOBEAT ENGINEERS

BUSINESS PROFILE

INTRODUCTION

Technobeat Engineers is result of visionary efforts from Mr. Vishnu Rathod to introduce a pioneer step into delivering benchmarked industrial services. Though, it established in 2010, the seeds were sown right from the start of the professional career. The concept was to provide one roof engineering inspection solution and technical assistance to industries.

As very well said, "to reach the goal one must step ahead", it is first step of our journey in the form of providing statutory services under The Factories Act – 1948. We are aiming to enhance and cover all kind of engineering inspection services which includes statutory requirements under all related acts, specialized training programmes, audits, valuation, project consultancy, NDT and technical assistance. In addition to this we are also conducting execution and commissioning of projects related to cross country gas pipeline, plant piping and City Gas Distribution network.
