

HEALTH, SAFETY AND ENVIRONMENT POLICY

Technobert Engineers wishes to be the best service organization in the industry with higher standards of Health, Safety and Environment (HSE) as prime important factor. In order to ensure Health, Safety & Environmental protection to our staff, contractor and clients from the hazards arising from our services. We as a responsible company, shall set HSE as the most important responsibilities in our business process.

Consistent with our vision, mission and values we will seek to conduct our Inspection, Testing and other services in such a way as to avoid harm to our employees, contractors and all others who may be affected directly or indirectly by our activities, damage to work surrounding environment, loss / damage of company owned and customer asset, company and client reputation and also to maintain the highest practically achievable standards of safety, occupational health and environmental protection in our day to day business.

This will be achieved through:

- By considering HSE as a line management function with systematic approach
- Identifying all hazards associated with our services and controlling them
- Empowerment to STOP unsafe work / conditions.

The Purpose of this policy is to ensure:

- Protection of Health and Safety of all Technobert staff, contractors and clients
- Prevent pollution and contamination of environment
- Promotion of safe work practices and strong HSE culture
- Comply with the applicable Health, Safety & Environment regulations and all legal requirements

Respect to clients HSE Management System
